Chukwujekwu Amanda Chimdiuso

Web Developer & UI/UX Designer · Remote Professional · Available Worldwide

PROFESSIONAL SUMMARY

My coding journey began with a curiosity about technology and a desire to understand how digital solutions are built. Since joining Aptech, I have developed practical skills in web development, Java, AI, databases, HTML, CSS, JavaScript, and React. Through hands-on projects, I have progressed from learning the fundamentals to building functional web applications and solving real-world problems with code. This journey has strengthened my problem-solving skills, creativity, and confidence, while motivating me to continue growing as a software developer.

WORK EXPERIENCE

Freelance Web Developer & UI/UX Designer

2026

Self-Employed · Remote

- Designed and developed custom websites and web applications for clients across various industries, delivering responsive and user-friendly digital experiences.
- Created end-to-end UI/UX designs — from wireframes and prototypes to polished final interfaces — ensuring each product was both visually compelling and intuitive to use.
- Managed client relationships independently, gathering requirements, presenting design concepts, and iterating based on feedback to meet project goals on time.
- Maintained a fully remote workflow across multiple concurrent projects, demonstrating strong self-discipline, communication, and time management skills.

EDUCATION

Advanced Diploma In Software Engineering (ADSE)

APTECH · 2026/2028
